Android 9.0 Handheld

This rugged handheld computer with the Android 9.0 operating system, Qualcomm Octa-Core processor and QWERTY keyboard, has a replaceable 6700 mAh battery and an optional pistol grip with an extended 5200 mAh battery. With its data acquisition functions for barcodes, RFID and NFC, this device can be used in the areas of logistics, warehousing, manufacturing, retail, etc.

robust • compact • ergonomic

Specifications

Dimensions, Weight	202.0 x 72.5 x 32.0 mm, 370 g
Display	4-inch full HD display, IPS LTPS 800 x 480
Battery	6700 mAh replaceable main battery, 5200 mAh optional gun battery, support QC3.0 and RTC; Built-in 100 mAh backup battery; Standby up to 680 hours; Permanent operation over 12 hours (depending on user environment); Charging time: 3.5 hours
Touch Panel	Multi-touch panel, operation with gloves and wet hands is supported
Loudspeaker, Vibrator, Microphone	available, 2 microphones, 1 for noise reduction
Interfaces	USB 3.0, Type-C, OTG, extended thimble
Card Slots	2 slots for SIM card, 1 slot for TF card
Keypad	37 keys; Side buttons: 2 SCAN buttons, 2 volume buttons, 1 custom button
Sensors	Gravity sensor, proximity sensor, light sensor, acceleration sensor, vibration motor
Indicator LED	Power supply, charging, status display
Environmental Conditions	Operating temperature -20 to + 50°C, storage temperature -40 to + 70°C Humidity 5% RH - 95% RH non-condensing
Drop Specification	Multiple 1.8 m drops (at least 20 times) onto concrete over the operating temperature range
Tumble Specification	1000 x 0.5 m falls at room temperature
Protection Class	IP67 according to IEC specifications
ESD	± 15 kV air discharge, ± 8 kV line discharge
Operating System	Android 9.0; GMS, 90-day security updates, Android Enterprise, Zero-Touch, FOTA, Sofi MobiControl and SafeUEM are supported
SDK, Programming Language, Tool	Chainway Software Development Kit, Java, Eclipse / Android Studio
CPU, RAM ROM	Qualcomm 1.8 GHz Octa-core, 3 GB + 32 GB; 4 GB + 64 GB (optional)
Expansion	supports up to 128 GB micro SD card
WLAN	Support for 802.11 a/b/g/n/ac/d/e/h/i/k/r/v 2.4/5 GHz dual band, IPV4, IPV6, 5 G PA; Fast roaming: PMKID caching, 802.11r, OKC; Operating channels: 2.4 GHz (channel 1 ~ 13), 5 GHz (channel 36,40,44,48,52,56,60,64,100,104,108,112,116,120,124,128,132,136,140,144,149,153,157,161,165); Security and encryption: WEP, WPA / WPA2-PSK (TKIP and AES), WAPI-PSK - EAP-TTLS, EAP-TLS, PEAP-MSCHAPv2, PEAP-LTS, PEAP-GTC, etc.
WWAN	2G: 850/900/1800/1900 Mhz; 3G: CDMA EVDO: BC0, WCDMA: 850/900/1900/2100 MHz, TD-SCDMA: A / F (B34 / B39); 4G: B1/B3/B5/B7/B8/B20/B38/B39/B40/B41
Vo-LTE	Support Vo-LTE HD video voice call
Bluetooth	Bluetooth 4.2/4.1+HS/4.0/3.0+HS/2.1+EDR
GNSS	GPS/AGPS, GLONASS, BeiDou, Galileo, internal antenna
2D Scanner	Zebra SE4750 MR; 1D barcode types: UPC / EAN, Code128, Code39, Code93, Code11, Inter-leaved 2 of 5, Discrete 2 of 5, Chinese 2 of 5, Codabar, MSI, RSS, etc. ; 2D barcode types: PDF417, MicroPDF417, Composite, RSS, TLC-39, Datamatrix, QR code, Micro QR code, Aztec, MaxiCode; Postal Codes: US PostNet, US Planet, UK Postal, Australian Postal, Japan Postal, Dutch Postal (KIX), etc.
Camera	13 MP auto focus, rear, with flash
NFC	13.56 MHz; Protocol: ISO14443A / B, ISO15693, NFC-IP1, NFC-IP2, etc. ; Chips: M1 Card (S50, S70), CPU card, NFC tags, etc. ; Reading area: 2 - 4 cm

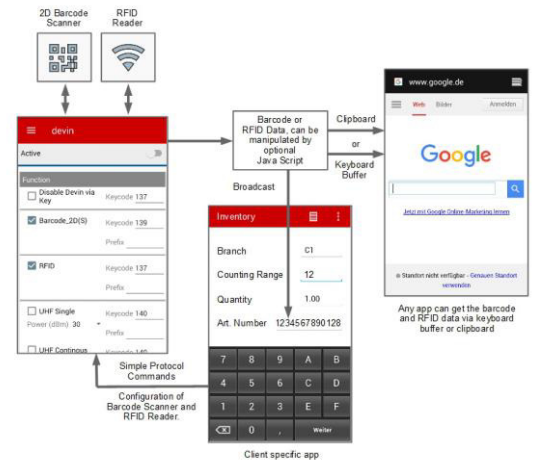

Android Apps for LogiScan-14xx/15xx/17xx/2000/3000

devin

Barcode and RFID Management

The Android app devin allows the transfer of the scanned barcode scanner or RFID reader data of an android-based LogiScan to the keyboard buffer or the clipboard. Alternatively, a broadcast message is possible. Thus, the bar code scanner and RFID reader can serve as a data source for each app.

- Each input device can be activated separately.
- To each input device a key code (can be determined with the Keyboard app from the AppCenter) and a prefix can be assigned.
- If barcodes and RFID tags are to be provided for any existing applications and web pages that do not have any influence on programming, the keyboard buffer is recommended. That means that barcodes and transponder tag IDs appear as keyboard input for the app.
- Prefixes and suffixes can be defined common for all input devices.
- The passed string can be completed with Enter or Tab.
- Scanned data can be output as a message.
- Apps can change the scanner settings.
- If no bar code read and this option is enabled, the scanner turns off when you release the button, if the other switches off after a timeout..

aiBrowser

HTML5 Android Web Browser for Barcode and RFID Applications

The Android app aiBrowser interacts with the Android app devin and allows the transfer of the scanned barcode scanner or RFID reader data of an android-based LogiScan into web applications. The aiBrowser is HTML-5 compliant and is useful for modern JavaScript-based web applications (such as Microsoft Dynamics NAV). The optional kiosk mode prevents access to the system.

The aiBrowser offers, among others, the following functionality:

- Default URL to be called when aiBrowser is started can be set.
- Transfer of the scan data using JavaScript function call or by KeyUp / KeyDown events.
- Auto-login functionality for password-protected web pages.
- Save and load the settings into / from configuration file.

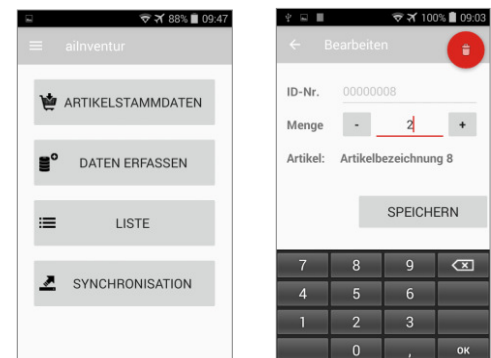

aiMDE

Demonstration of Barcode Scanner and RFID Reader, performing simple Inventory

The Android app aiMDE interacts with the Android app devin. aiMDE is used for the demonstration of barcode scanners and/or RFID readers and can be used for simple inventory with android based LogiScan.

aiInventur offers inter alia the following functionality:

- Load item master data.
- Entry of item number and quantity.
- View the list of collected data.
- Correction of captured data.
- Data synchronization with FTP server or Windows software MTPWin.
